**Job Type:** Full Time

**Job Location:** CA-Fremont

**Posted On:** 2016-09-22

---

**Job Description:**

Vertisystem, Inc. is seeking a qualified professional to fill the position of Product Sales Analyst based in Fremont, California. Responsibilities include: analyze business requirements and participate in requirement sessions to understand and identify missing, ambiguous, inconsistent requirements. Contribute ideas to improve product functionality, maintainability or performance, and provide accurate work estimates for proposed projects. Develop information and consider available solutions or alternate methods of proceeding including organizational change, communications, information flow, and integrated production methods. Work closely with cross functional team members to understand business and functional requirements to develop logical and physical design and communication plan and strategy, and test plan and test cases to fulfill all requirements. Prepare reports of findings by illustrating data graphically and translating complex findings into written text. Identify key functional gaps and offer valuable suggestions. Confer with personnel concerned to assure smooth functioning of newly implemented systems or procedure. Track project progress and report project status to Business and Information management units. Utilize experience in SIAM and SAM services, VMware, LAN, WAN, EPBAX, Data Connectivity-MPLS VPN and PeopleLink. Position requires 50% national travel.
